

Concrete Retaining & Noisewall Finishes

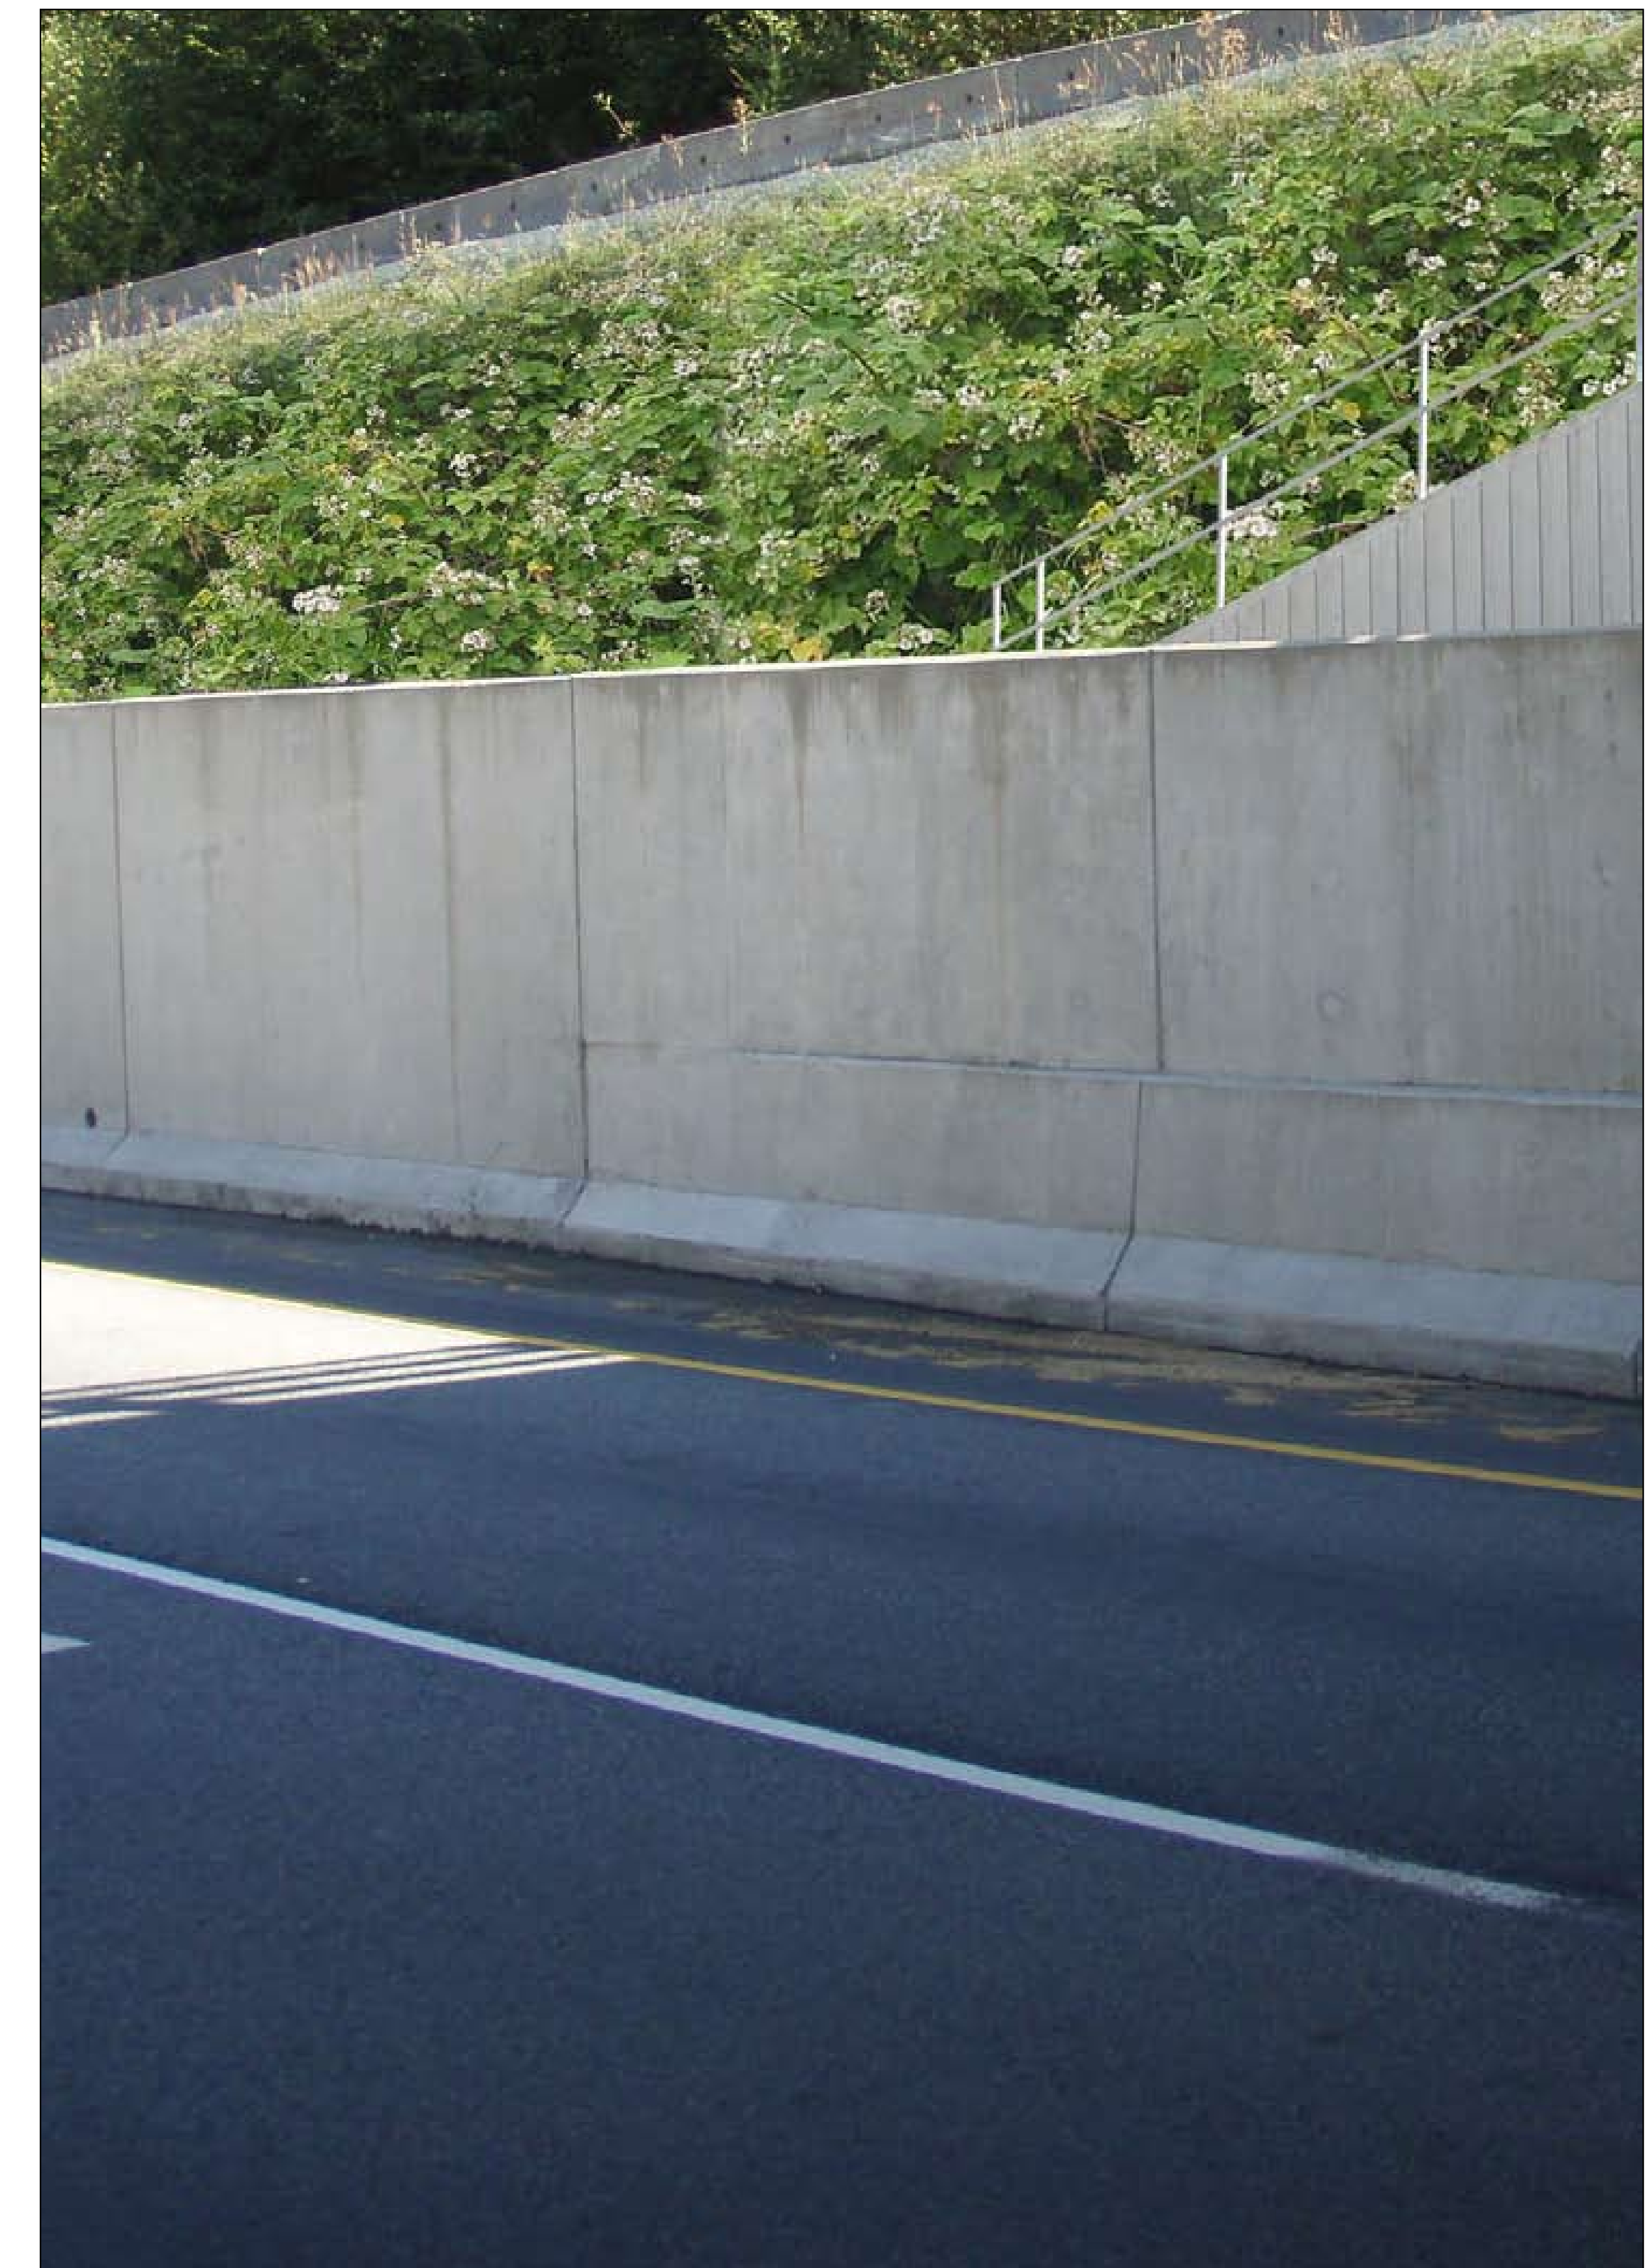

Three finishes for concrete retaining walls are represented below. The preferred option will apply to all concrete retaining and noise walls in the community as well as including the split-grade wall dividing northbound and southbound traffic at Kelvin Grove for a consistent visual theme.

Ashlar Stone

Ribbed

Flat

Wall Plantings (where applicable)

Noisewall with Climbing Hydrangea Planting

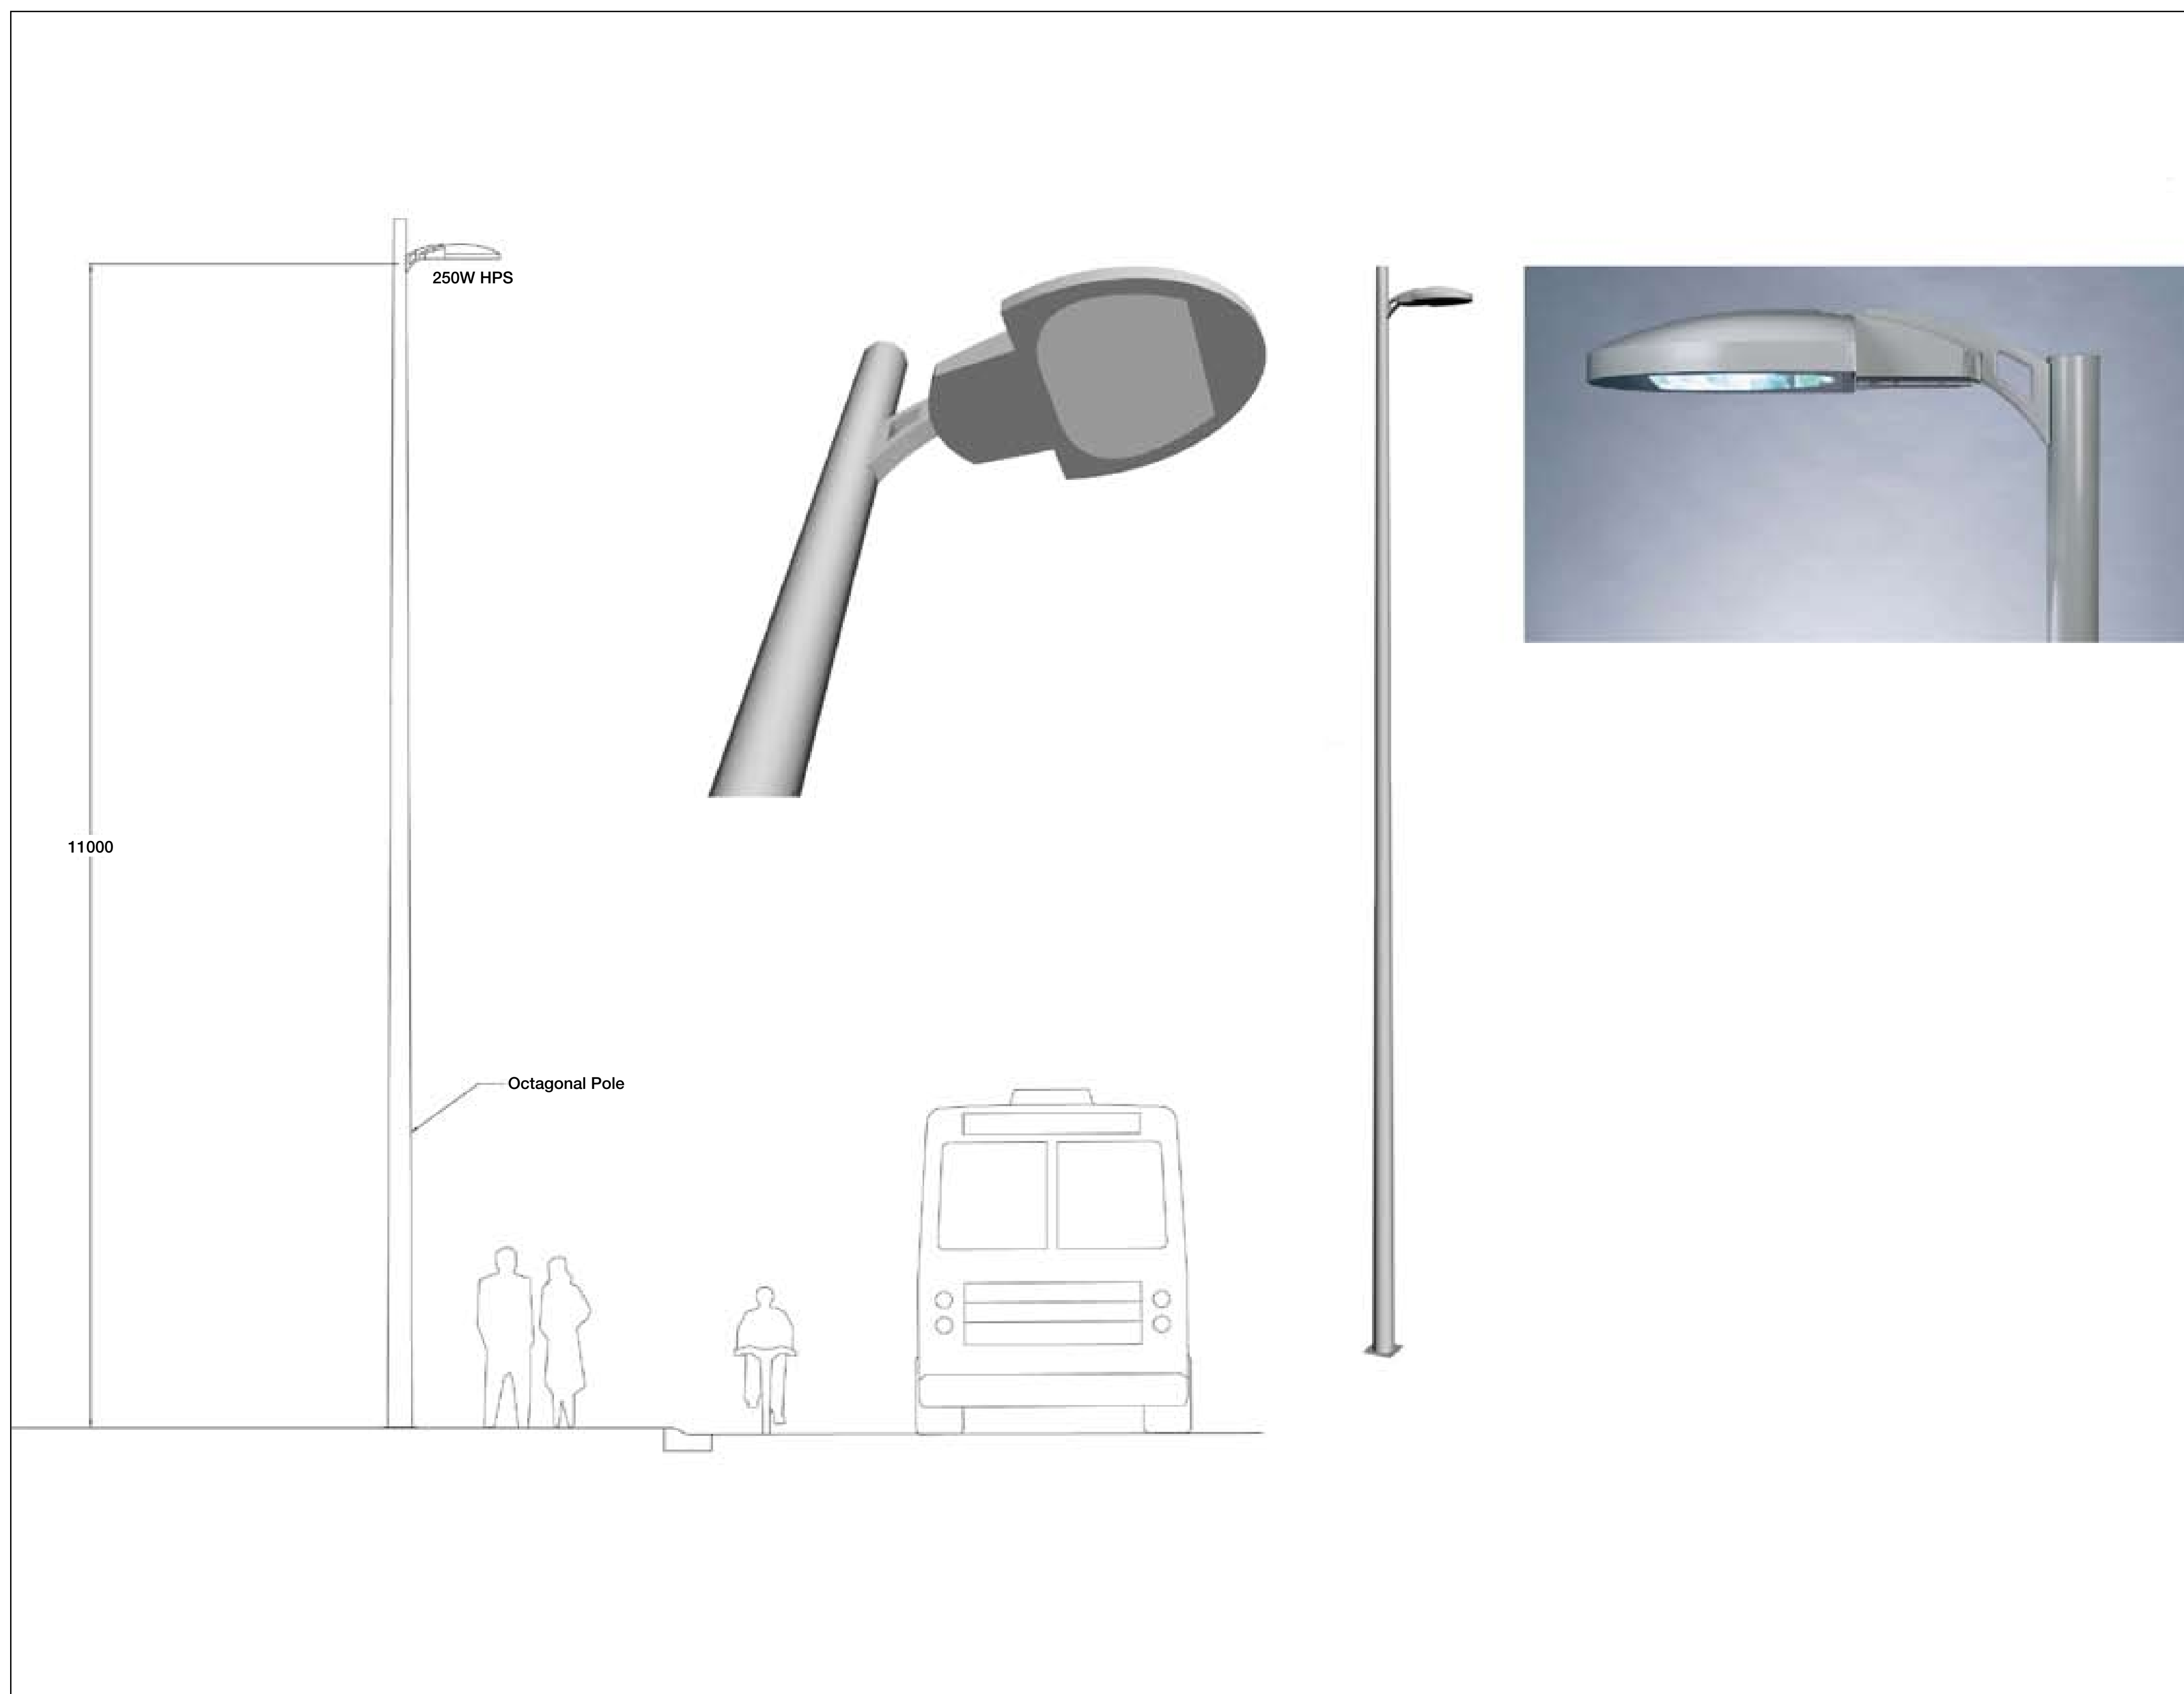

Wire Retaining Wall with Boston Ivy Planting

Architectural Lighting

Lighting will only be used at mini-change areas, where it is required for safety. Highway lighting standards offer a limited range of architectural style options. The options below represent two types of lighting fixtures that meet both public transportation safety requirements and the desire for an aesthetically pleasing style within the community.

Option 1

Option 2
