Opportunity for Community Input on Detailed Design Features for Lions Bay Section of Sea-to-Sky Highway

Improvements are being undertaken on the Sea-to-Sky Highway between Horseshoe Bay and Whistler. By 2009, extensive highway improvements will improve safety, reliability and capacity and will serve population growth and economic development in the corridor as demand increases for resident and visitor travel, as well as goods movement.

The Sea-to-Sky Highway Improvement Project invites Lions Bay residents to provide feedback on detailed design features such as gateway signage, lighting and retaining and noise wall treatments.

Small group meetings will take place for those who would prefer to review materials, ask questions and provide feedback in a smaller group setting on October 16th and 17th.

Please refer to the consultation discussion guide and feedback form at www.seatoskyimprovements.ca.
