Opportunity for Community Input on Preliminary Design Options for Lions Bay section of Sea-To-Sky Highway

The Sea-to-Sky Highway Improvement Project invites Lions Bay community and other stakeholders to provide feedback on preliminary design options for improvements to the Lions Bay section of the Sea-to-Sky Highway.

Improvements are being undertaken to the highway between Horseshoe Bay and Whistler to improve safety and reliability. By 2009, extensive highway improvements will make travel along the highway safer and more reliable for residents, commuters and tourists.

Highway improvements will be presented to the community and stakeholders with summary information about key characteristics such as mini-changes, noise mitigation options, village atmosphere, gateway features and the proposed location of transit stops.

Community feedback can be provided by attending the open houses or by accessing consultation materials, including an on-line feedback form, at:
